Formal Movement Launched Yesterday and Matter to Be Pushed by Residents of Town Down the Yough.

### THE CIVIC LEAGUE IS ACTIVE

Ninety Per Cent of Taxpayers in Dawson, Dickerson Run and Vanderhill Are Anxious to Have Toll Charges Eliminated—Before December Court.

Special to The Courier.

DAWSON, Nov. 18.—The movement for a free bridge over the Youghiogheny river between Dawson and Dickerson Run was formally launched yesterday when several petitions were put in circulation praying the County Commissioners of Fayette county to free the present toll bridge at this point. The petitions are being freely signed. Fully 90 per cent of the taxpayers, it is predicted in both Dawson, Dickerson Run and Vanderhill will sign the petitions.

At a meeting of taxpayers and citizens held recently a Citizens League was organized. Joseph Snyder of Dickerson Run is president, P. C. Ogilvie, secretary, and J. P. Black treasurer. They have employed E. C. Higbee of Connellsville to look after the legal end of the movement. It is the intention of the Dawson citizens to lay the petition before the December Grand Jury.

At a meeting of citizen held last week George C. McGill of Dawson, Joseph Ogilvie of Dickerson Run and J. C. Core of Vanderhill were appointed a committee to wait on the Dawson Bridge Company and, if possible, get the company to place a price on the bridge. The committee met representatives of the company on Tuesday evening. However, no price was set upon the bridge. The company holds that the proper time for that will be when the matter goes into the hands of the County Commissioners. The Dawson Bridge Company began doing business in the spring of 1883. M. M. Cochran is the present President. Up until six months ago the toll for foot passengers was two cents each way on the bridge. Recently it has been cut to one cent. Single teams are charged 10 cents each way and double teams 15 cents each way. The cost of the present structure, it is stated, was about \$35,000. The bridge company it is said, make a profit of about 12 per cent, though some places it is as high as 30 per cent.

### LABOR LEADERS GET TIME TO MAKE APPEAL

District of Columbia Supreme Court Promises Longer Extension if Needed.

United Press Telegram. WASHINGTON, Nov. 18.—The District of Columbia Court of Appeals today decided to extend the instance of the labor leaders' contempt of court case until November 29 in order to give counsel for the three labor leaders an opportunity to present an application for a writ of certiorari to the Supreme Court of the United States.

Chief Justice Shoppard announced that still further time would be granted if needed, pending the Supreme Court proceedings. In renewing their request for an extension of time the attorneys for the labor leaders pointed to the fact that the Supreme Court is taking a recess and there would be no opportunity to apply for a writ until November 21, while unless an extension was granted the men they would have to go to jail Monday. Attorneys for the District Store Company made no objection to the extension.

### COL. ASTOR'S YACHT MISSING FOR DAYS NOW

Not Heard From Since Terrible Gale Off Jamaica and Worst is Feared.

United Press Telegram. NEW YORK, Nov. 18.—Every coast station equipped with government wireless apparatus is today endeavoring vainly to pick up the Nourmahal, the yachtsman on which Col. John Jacob Astor and his son and heir, Vincent, have been cruising in West Indian waters. The yacht has not been reported since the gale off Jamaica a week ago.

Signals have been flashed the Nourmahal for four days, but no response was made. A government revenue cutter has been ordered to proceed from San Juan, Porto Rico, and seek the yacht.

Fears are also increased from the fact that Eugene Higgins' yacht, also cruising in those waters, is pounding to pieces on the rocks, following the gale. Higgins' yacht was much bigger than Astor's.

### FIGHT DEMAND TO FILL RUSSIA'S WAR CHEST.

Finnish Diet is Dissolved and Resort to Arms May Be Made Soon.

United Press Telegram. HELSINKI, Finland, Nov. 18.—The Finnish Diet, the last legislative body Finland has preserved from the domination of Russia, was dissolved today. The dissolution is looked upon as the beginning of a demand for independence. There will undoubtedly be violent opposition to this and the Finns may resort to arms.

The dissolution is the result of the refusal of the Diet to authorize the contribution of \$1,000,000 from the Finnish treasury to the military fund of Russia.

The demand for the tribute was made from St. Petersburg and the senate, staffed with Russian officials, passed the measure. The Diet rejected it.

## CASE OF SMALLPOX DEVELOPS AT ADELAIDE.

Italian Woman, Wife of Boarding House Keeper, Is Quarantined in Little House—III Since Monday and Condition Is Good.

Considerable excitement prevails at Adelaide over the discovery of a genuine case of smallpox and a rigid quarantine has been established. The discovery of the case was made only yesterday, the victim being a foreign woman, Mrs. Michael Dell, aged about 22 years.

Dr. Harry J. Bell of Dawson, was called in last night to make an investigation of the woman's illness and pronounced the case one of smallpox.

Measures were immediately taken to prevent the disease from spreading among the workmen in the community and Mrs. Dell was removed to a small shack opposite the postoffice. She is reported as getting along nicely today and it is not thought there is much danger of any others in the community contracting the disease.

Mrs. Dell with her husband contracted a boarding house and among the boarders there were three Italians. These have been isolated from other workmen and will be guarded until all danger of infection has passed. The general impression is that the disease was contracted by the woman coming from the Old Country.

The Frick Company, the Marietta-Gainer Company and others employing foreigners in that section are guarding the case carefully and are prepared to take prompt measures in case of an outbreak of the disease.

## WINTER WEATHER IS HERE AT LAST.

Swooped Down With a Vengeance and a Good Fall of Snow Comes Along.

### COLD IS KEENLY FELT, TOO

Railroaders Had Hard Time Coming Across Mountains Last Night—Merchants Glad to See Balm Yephyra Go.

Real old fashioned winter is here with a vengeance. It began with the terrific wind storm of Tuesday night, which sent the mercury tumbling down the tube until the freezing mark was reached in the early hours. Yesterday the temperature kept dropping throughout the day, accompanied by occasional snow flurries.

During the night the snow continued falling and by daylight today a white mantle covered the region. Throughout the morning there was a heavy fall of the "beautiful."

The high wind which raged last night was keen and cutting. The railroad men felt its effects keenly, especially those who took trains over the mountains during the night. Passenger trains coming from the east showed evidences of the weather that prevailed.

At various points in the mountains east of here the mercury was well below freezing and a skin of ice formed on the mountain streams. The water is low at this time and these streams will freeze easily. There is no immediate danger of a scarcity of water, although in some places the streams are at such a stage as to cause apprehension.

The mercury this morning registered 34, the lowest for the month. Last evening it was 38 and 42 in the morning.

To the merchants the coming of colder weather was welcome, since they believe it will cause quite a boom in trade in wearing and food stuffs, which lagged somewhat through the influence of the warm weather. The farmers will find in the weather a deterring effect upon corn husking, a good deal of corn being yet out, and cold fingers will be the rule from now on if the agriculturist persists in getting the corn into the crib. The cold weather is the death warrant for the pig population, and butchering, which the warm weather prevented, will now take place, and the dying screams of the porters will be heard. And that last will start some country sawmills for the stores, while the cold mornings will make that and buckwheat cakes a desirable diet for the people.

## AMERICANS SHOT BY ZELAYA'S ORDER.

As a Result State Department Calls Off Reception Intended for

### NEW NICARAGUAN MINISTER

Reign of Terror Said to Exist and So Far Upwards of 500 Persons Have Been Executed—Refugees Fleeing to Panama.

United Press Telegram.

WASHINGTON, Nov. 18.—Following receipt of a message from the consulate at Managua that Leonard Grace and Leroy Cannon, Americans, were executed by order of President Zelaya today, the State Department notified the Nicaraguan Charge d'Affaires at Washington that the reception to the new Nicaraguan Minister, Senor Hazen has been indefinitely postponed. The Navy Department has ordered two cruisers to Central American waters.

Refugees declare that women relatives of the men killed suffered the greatest humiliation, indignities and cruel treatment at the hands of the soldiers.

"There is a reign of terror exists in Nicaragua and that hundreds of men are being put to death for assisting the Estrada movement. Is the news received today in a cable dispatch from Panama. Word was brought there by passengers arriving from Nicaragua. More than 500 men have been seized by the Government troops and shot without trial, say the refugees. The troops are still arresting suspected sympathizers of Estrada. The action of the troops is declared to be atrocious. Citizens are daily searched for incriminating letters. A number of households resisted and their houses were burned. The refugees say the only hope of peace is the interference of a foreign power.

### COKERS GET BILLY KUHN; STAR PLAYER

Clever Outfielder Landed by Team Here After Long Negotiating.

Director A. A. Straub of the Cokers is wearing a broad smile today and the answer is a brown sheet of paper which has been signed by "William Kuhn." It is a 1918 contract, the second one the Cokers have landed for the coming season.

Kuhn played independent ball last season. Mr. Straub tried to get him for the team last year but failed. He finally agreed with the terms offered him and signed up for 1910.

The youngster is an outfielder. He is built on lines similar to Tommy Leach or Jimmy Miller, being small, but fast as chain lightning on the bases. He can also hit. Many players recommended Kuhn to Mr. Straub, among them being Tom Sileo of last year's team.

### B. & O. MEN DRAW SOME BIG CHECKS

Engineers in Many Instances Made \$160 to \$180 Last Month. Pay Lasts Week.

It takes more than one day to pay the employees of the Connellsville and Pittsburgh divisions of the Baltimore & Ohio railroad since the wave of prosperity has set in. Although pay day occurred Tuesday more than 1,000 checks were in the pay drawers at the window this morning.

Some remarkably high checks were handed out this week from the Little window. One engineer carried away with him a slip that called for \$180 and a few cents, while there were a considerable number of \$160 checks and \$100 checks were plentiful.

## SOLICITOR'S FEE WAS A JUST DEBT

But Some Borough Officials Had It Investigated First.

### KICK ON PAYMENT OF \$200

Records, However, Show That the Late W. H. Brown Was Never Paid For Services for Six Months in the Year of 1907.

The municipal muck raking which has been unearthing some annoying things regarding the borough's finances, especially in regard to the Fire Department, threatened to extend to the Borough Solicitors but a thorough investigation into the matter cleared it up in a satisfactory manner this morning.

Borough Treasurer I. W. Rutter, smelted a rat, and it looked as though the estate of the late W. H. Brown might have secured \$200 from the borough to which it was not entitled. An investigation of the records today proved this incorrect.

The payment of \$400 in September, 1907, to Higbee & Brown would appear, at first glance, that the Borough Solicitors had received their annual stipend for that year, and the payment of an additional \$200 to the Brown estate made \$600 the borough expended in that year for legal talent. It develops, however, that the \$400 warrant was for services in 1906.

Borough Solicitor E. C. Higbee explained the whole transaction this morning and this was later verified by Borough Treasurer Rutter. In 1904 Higbee & Brown were employed as the Borough Solicitors. In March, 1905, a warrant was drawn for \$300, just half the indebtedness. On August 6, 1906, a warrant for \$600 was issued the firm, paying them for 1905 and the \$200 balance due on 1904. The next warrant drawn in their favor was September 3, 1907 for \$400, the entire amount of the 1906 salary.

When Council organized in 1907 the firm of Higbee & Brown was dropped as Borough Solicitors and W. H. Brown elected to the place. He served until the time of his death in August, 1907, and the following month E. C. Higbee was elected. The only warrant drawn after that was to E. C. Higbee for \$200. This was issued in April, 1908, for the half year he served. No warrant in favor of the Brown estate was issued for Mr. Brown's services the first six months of 1907 until the matter was taken up by Council Tuesday evening.

Why the claim for \$200 was not presented until this late date is another story.

### TAXES PAID INTO BOROUGH TREASURY

Collector Brown Turned Over \$2,000 on the 1908 Duplicate This Morning.

Tax Collector George B. Brown this morning turned over to the borough nearly \$2,000 on the 1908 tax duplicate. The checks were given Borough Treasurer I. W. Rutter a short time after police court adjourned. The exact amount turned into the treasury was \$1,857.50.

Of this amount \$1,202.46 went into the general fund; \$240.86 into the sewer fund; \$207.38 into the sinking fund; \$137.65 into the special sinking fund, and \$89.99 into the library fund. Mr. Brown also expects to turn over a good sum of the 1909 duplicate either today or tomorrow.

Money is just flowing into the borough coffers, although it is being spent by the Council about as fast as it comes in. This morning James A. Veagh turned over a check for \$22.50 to cover the fee for tapping a sewer on the West Side.

### REPORTS ARE BEING PREPARED

The Route as Surveyed Through the Frick Farms Will Be Considerably Shorter Than the Old Road and Will Eliminate Steep Hills.

Engineer W. K. Allen is busy today mapping out the new route for the Broad Ford road. The viewers have decided upon the route of the road and believe that it will be generally accepted by those who travel it. George Campbell, one of the viewers, this morning stated that the road was surveyed in a direct line to Broad Ford and would be of great advantage to Connellsville.

The road as laid out and petitioned for by the residents of that section makes a turn at Davidson and then goes directly through the property of the H. C. Frick Coke Company. The company objects to the cutting up of its farm and has been opposing the route on this account, but the viewers will recommend it at the December term of court when they will make their report and present their maps. It is claimed that the new route is much shorter, the old road as surveyed was 5,600 feet, compared with 3,400 feet over the new route. The new route will entirely eliminate the steep hills and less than a 3 per cent grade is obtained.

"Taxpayers will not have to use a rubber on the whole route of the new road," said Mr. Campbell this morning. "If it is properly constructed the road will make one of the best for automobilists in this section. It is straight as a Pittsburg street and there are no steep grades. It passes through the Frick farm, cuts it up a little and there is where the opposition comes in, but then I believe that this matter can be adjusted as soon as the maps and blue prints are in shape."

### COST MUCH LOWER THAN FIRST STATED

Borough Work on Eighth Street Extension Was Done for 94.8 Cents a Yard.

Through a clerical error, made either in the office of the Borough Engineer or Clerk A. O. Bixler, the estimate of cost for the eighth street extension, done by the borough under direction of Chairman Edgar Cypher of the Street Committee, was in error.

Instead of the paving costing the borough \$1.17 a yard, as the report stated, the actual cost, including the advertising, engineers' charges and other items of expense, was only 94.8 cents. The cost for the paving alone was 88 cents.

These figures are way below the lowest bid of any of the contractors, \$1.10 being the lowest charge that was made by them for paving.

### REFORESTATION BEGUN IN PENNSYLVANIA.

The announcement that the State has acquired as a part of its forest reserves some nine thousand acres of timber lands in Westmoreland and Somerset counties is interesting to Fayette county and particularly to the Youghiogheny valley.

Though it is not stated just where this forest reserve is located, it is possibly around the headwaters of Indian creek, Laurel Hill creek and tributaries of the Casselman, in which case it will materially assist in preventing any further diminution of our water supply. It possibly includes, also, the headwaters of the Loyalhanna creek, conserving the water supplies of Ligonier and Latrobe; and the headwaters of Stony creek, from which Johnstown draws some portion of its water.

The State has undertaken to prevent the future pollution of the streams. The undertaking is a significant one and it may be some years before it is accomplished. It involves the construction of several disposal plants in all the towns and cities. In the meantime, however, it would be well for the State either by direct purchase and planting, or by offering interesting inducements to riparian owners, to reforest the banks of all streams of any consequence, to the end that the erosion of the soil and damages by flood may be minimized, and that the domestic water supply may be conserved.

This is a subject which might occupy the attention of our Harrisburg statesmen at the coming session of the Legislature with profit to the State.

### THE TELEPHONE AND TELEGRAPH COMBINE.

The announcement that the Bell telephone system has absorbed the Western Union telegraph system, and the intimation that a merger of all the leading telegraph and telephone interests is imminent, has stirred the Government into action and it is announced that such a consolidation will be opposed in the courts.

It is such consolidations as these which add to the preponderance of patronage in our Government. A monopoly of the telegraph and telephone interests with incident extortionate charges would inevitably result in the Government taking over the whole business.

The English Government has long controlled the telegraphic systems of that country, and it must be confessed that the step from a public postal service to a public telegraph and telephone service would be a very natural and a very short one.

If the telegraph and telephone monopoly desires to escape being gobbled up themselves they will have to conduct their business with decency and fairness to the public.

### THE UNEARNING INCREMENT OF GREENE COUNTY.

The Greene county assessors indicate a purpose to jump the coal assessment in that county in a manner quite drastic. One assessor, who has just completed his work and filed it with the County Commissioners, has advanced the valuation of coal in his district from \$10 to \$125 per acre.

There has been a material advance in the value of Greene county coal lands since the last triennial assessment, but as a whole prices have not risen in this radical ratio.

While the assessments are below the actual value of these lands, yet it must be borne in mind that there have been no developments of this coal, and until such development takes place it is unjust to tax the coal at a higher rate.

It will be time enough to do this when the coal becomes a revenue producer. At present it is what might be termed an unearning increment.

### THE DISSEMINATION OF ASSISTANCE AT THE POLLS.

Justice John Hoyle of Uniontown has decided that the legal disability of a voter under existing ballot laws is not necessarily confined to his lack of ability to read and write, but may also extend to his lack of knowledge of a complicated ballot, such as that of the recent election; and that it is the right of the voter to have assistance in marking his ballot, if it seems to him that he does not fully understand how to vote intelligently.

Without entering into an argument, it may be stated in a general way that the man who is the lazier to vote his ballot, and especially the man who feels himself incompetent to mark his ticket even though he is able to read and write, is not competent to vote. He is too dangerous a man to handle as an American ballot. He should not be trusted with the right of suffrage.

The chief intent and main purpose of the Australian ballot system under which we now vote is the preservation of the secrecy of the ballot and the consequent practical elimination of bribery at the polls. Under the loose construction of the law concerning the "assistance" that may be furnished to voters, this purpose is in a large measure defeated.

The bargain is made with the voter

and a man is sent with him to see that he votes straight; if he does, he gets a red or blue check which is honored after the election, and does not of course appear in the expense account.

If the Legislature would preserve the secrecy of the ballot, it had better enact a new ballot law forbidding the "dissemination" of "assistance."

The Connelville nickelodeons have been under inspection at the hands of the State and some changes have been ordered. One especially worthy of mention is the requirement to provide the machine room with asbestos linings. This is probably the result of the investigation into the explosion in Pittsburgh recently due to the ignition of certain materials used in the manufacture of the moving picture films.

The slate fall in a modest and unobtrusive enemy of the coal miner, but it works overtime, and its annual harvest of death is appalling.

We are thinking of providing an asbestos-lined room for the reception of visitors who call to register their kicks about the paper, and for the special use of the editor when he desires to discuss in a manner ornate the particular bull common to newspaper columns.

Football isn't the only sport that kills. The hunters shoot each other now and then.

It is reported that the United States Steel Corporation has purchased from a poor Ohio blacksmith a secret process for quickly and economically converting iron into steel. If the process is practical, it is worth many times the price paid. The process of making steel direct from the ores by electricity is happily for the Connelville coke region still a dream.

The Western Union cat has been belied.

The once popular sport of shooting wild ducks within the borough boundaries to the anglers, but the fact does not seem to be generally understood. The Burgess has been lenient in this respect, but future duck shooting of this character will be expensive sport.

It's wonderful how suddenly soft drinks become strong waters in dry communities.

Scottsdale is elated over a fine well of water obtained at a depth of only 27 feet. Such a well is of doubtful value for domestic purposes. It is too close to surface drainage to be above suspicion of possible contamination. Spring and shallow wells are fruitful sources of disease in crowded communities.

Both the Great Lakes and the Atlantic Ocean are being storm-swept. Water's toll of death this year has been unusually great.

The Spokenessy, which flourished like a green bay tree during local Option in Fayette county, and which later languished out the losing end, was supposed to have been broken up and utterly destroyed through the operations of the Brooks law; but it has burst forth again within the very walls of Connelville. It begins to look as if the Brooks law is seriously enforced only against holders of thees.

Coon Hollow seems to be the best hunting ground the Uniontown cops have. It abounds in great games and is a favorite resort for true sports.

Aunt Carrie Nation has faded away in distant Kansas, but Parkhurst is holding old Fort Pitt.

The United audit case has been appealed to the Superior Court. Fayette county seems to be furnishing nearly all the judicial delinquency on the California Primary law and the Corrupt Practices act.

The cold wave is making the fur fly.

The Chamber of Commerce is chasing things, but without effect. Most banking is better done without a brass band. The gumshoe suit is most effective in many cases.

President Taft indicates that he will have a little further regulating of the corporations to do when the Congress meets again, but the regulation will be reasonable and conservative, not drastic and demolishing.

It was perhaps too much to expect that we would have summer all winter.

The Dome is Thinks Thatched.

A constant reader writes to the Connelville Courier to inquire, "Where do the flies go in the winter time?"

We would tell Constant Reader if he or she, as the case may be, would come to Latrobe for the answer. This doesn't go, in the winter time. They simply come to the Baltimore office having concentrated here as soon as the season doors were taken off and having settled down over the ink well and the paste pot as though perfectly satisfied to stay all winter.

The flies tell the Constant Reader that the flies off in the winter time, becoming infected with red-tail mites or with fatal fungus diseases, subsequent to laying a few billions of eggs which hatch out in the spring, thus regenerating the race. The flies, however, and the mites seem to have missed connections with the flies this year, for in the Courier office they later appear to be an aggressive and as determined to spread a summer's visit over through the winter as they are here. In which event, we hope for The Courier editor's sake, that his well developed dome of thought is amply protected with a shock of football hair.

## INCREASED SURPLUS FUND BY \$50,000

First National of Uniontown Directors Met Monday and Pay Semi-Annual Dividend.

UNIONTOWN, Nov. 18.—At the regular semi-annual meeting of the First National Bank Monday November 15, the regular semi-annual dividend of 11 per cent was declared and the sum of \$50,000 was added to the surplus fund which now reaches the immense total of \$1,322,000. In other words the surplus fund is 1.22 per cent of the capital stock which is \$1,000,000.

This addition to the surplus fund makes the First National of Uniontown most firmly entrenched than ever before in its position as first on the list of honor among all the national banks of the United States, in actual world first in Fayette county, first in Pennsylvania and first in the United States.

Uniontown people are proud of the First National Bank and of its president J. V. Thompson and are glad that the bank has been enjoying its full share of prosperity the past six months which makes possible the splendid showing given out by this action at the November meeting.

# The Battle

By  
Cleveland Moffett

Copyright, 1930, by G. W. Dillingham Co.

Philip said he was going out. He had an engagement with Margaret, and on his way to the boarding house he turned over to his maid what he should say to her. It had suddenly become clear to him that he could not trust Gentle's judgment beyond a certain point; also that Margaret's position about the bakeshops had been too strongly taken for it to have been original with her.

Margaret greeted her lover with happy salutation.

"Tell me, old Gentle talk to you about those bakeshops?" asked Philip.

"Why—er—"

"Did he?"

"Yes," answered Margaret, "but—how strange you are!"

Philip brightened as his eyes rested on her. She was deliciously charming. He led her to the queer old lounge with its red rose pattern, and there they faced each other, half smiling, half serious.

But the growing difference that had sprung up between them insisted upon obtruding itself.

"Why were you so serious when you came in?" Margaret asked.

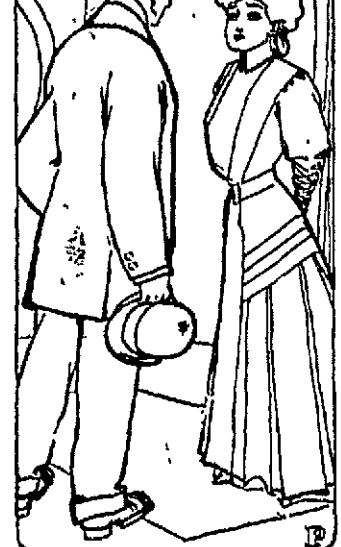

"We have made a mistake, dear, in one thing," he said, "and I—I know you'll be sensible about it."

"You mean about the plan to take more bakeshops into the combination?"

"Yes."

"You're not going to do it?"

"Listen, Margaret," he reasoned, "if we don't take them in they will form

"What I decide is the thing that shall be," a combination against us. That is certain. So the same number of bakers will be discharged either way, and if we force them to oppose us we shall suffer serious loss in our business."

Margaret did not see. She had counted on Philip's influence against this cruel combination, and now he was thinking only of the money.

"But, Margaret," he insisted, "we must have money, and surely you want me to think about the future."

"Not if it means harming poor people."

Philip frowned.

"The men discharged will soon find other work. Besides, think of the good we are doing. We're working a regular revolution in breadmaking. You may say what you please about Mr. Jackson, but—"

"I hate him!" interrupted Margaret.

"Anyway he has changed these bakeshops so you would scarcely know them. He insists on absolute cleanliness—doors and walls must be scrubbed every day, windows must be kept open for proper ventilation, defective plumbing must be repaired, no sick man may be employed. It's a good thing. It may save hundreds of lives."

Margaret listened uncontented.

"Don't do it, Philip," she begged, "Don't go into this new combination. Leave things as they are."

"But I explained that!"

"I know, only—Philip, you won't refuse me this—the first favor I have asked you!"

Philip hesitated.

"See here, Margaret, when a man and woman marry there are certain things that each one knows about, aren't there? A woman knows about the home and a man knows about business. And each must respect the other's judgment in those matters. Isn't that true?"

"Yes."

"Now, I'm the wage earner," he went on quickly, "I provide the money, and you must leave money matters to me."

Perhaps this was a decisive moment in Philip's life, the turning point where a last effort of hers might keep him right.

"I don't agree with you," she said, "I think a wife should know about her husband's work so that she can advise him and help him."

"The man must decide about business, and the woman must not interfere."

"Then," she murmured, "then you are not the Philip I thought you were."

"You're right," he said.

"Philip," she said with a sudden dignity, "I ask you once more not to do

## A SPECIAL TERM OF CIVIL COURT.

Judge Van Swearingen Sit-  
ting With Judge Kooser  
at Somerset.

### TWELVE CASES HAVE BEEN TRIED

Verdict For Machinery Company  
Against Defunct Amusement Com-  
pany—Cases That Have Been Set-  
tled—Forty on the List For Trial.

Special to The Courier.  
SOMERSET, Pa., Nov. 18.—On Mon-  
day a special term of civil court con-  
vened here with a list of 40 cases on  
the trial list. Judge J. Q. Van Swear-  
ingen of Uniontown is assisting Judge  
Kooser at this term of court, and up  
to this time 12 cases have been dis-  
posed of.

The first case called was that of  
Wickes Bros., a well known machin-  
ery manufacturing concern, against  
the Island Park Association, a de-  
funct pleasure resort and hotel enter-  
prise which went into the hands of  
receivers. This case was brought to  
recover several dynamos, engines,  
boilers and other pieces of machinery  
furnished to the defendants on May  
1, 1906, and valued at \$1,100. After  
hearing the evidence Judge Kooser  
directed the jury to return a verdict  
in the full amount for the plaintiff  
together with \$620 as damages.

In the case of Olat Henson and Wal-  
ter Neal vs. D. B. Zimmermann, an ac-  
tion in assumpsit to recover \$660 and  
interest from 1902 for drilling a test  
hole in a coal field, Judge Van Swear-  
ingen has not yet charged the jury.

The case of the Wagner-Palmros  
Manufacturing Company vs. the Mer-  
chants' Coal Company, an action in  
assumpsit to recover about \$2,000 for  
screens and chutes furnished to the  
defendant company, will be given to  
the jury to-day.

The following cases were contin-  
ued: William J. Fox vs. Wells Creek  
Coal Company, assumpsit; Annie  
Snyder vs. B. & O. railroad, assump-  
sit; S. D. Liveness vs. John T. Dav-  
iescraft, open judgment; Bollinger  
Bros vs. Quennington Coal Company,  
assumpsit.

The following cases have been set  
for trial: Midland Mining Company vs.  
Fenwood Coal Company, assumpsit;  
Meyerdale Planting Mill vs. William  
A. Tresler, set. in. on mechanics';  
Ben. Cora J. Otto vs. B. & O. rail-  
road, assumpsit; Babcock Lumber  
Company vs. James Curry & Son,  
trespass.

It is likely that the remainder of  
the week will be occupied in the trial  
of the cases remaining on the list.

### A SURPRISE PARTY.

Given Miss Nellie Kooser of Snyder-  
town on Birthday.

One of the most enjoyable social  
gatherings held in Snydertown and  
vicinity for some time was a surprise  
party tendered Miss Nellie Kooser at  
her home at Snydertown Tuesday eve-  
ning. The affair was in commemora-  
tion of Miss Snyder's 19th birthday  
anniversary and was arranged by Miss  
Cecilia Davenport. It was also a com-  
plete surprise to the remainder of  
the Snyder family.

A very delightful evening was spent  
in various amusements including  
vocal and instrumental selections.  
Miss Snyder was showered with  
pretty and useful presents as well as  
a number of attractive souvenir post-  
cards. At a late hour a bounteous re-  
past was served.

### INFANT'S SUDDEN DEATH.

Little Son of Superintendent Cullen-  
ton of Phillips Works.

Paul Bernard, infant son of Super-  
intendent and Mrs. W. J. Cullen-ton,  
of Phillips works, was found dead in  
bed yesterday morning. The child  
was awake at 5 o'clock when it was  
left, and a few hours later the mother  
found it cold in death.

The little one was four and a half  
months old. It had been in poor  
health for some time, but no thought  
of serious consequences had been en-  
tertained by the parents.

## MORE PINKHAM CURES

Added to the Long List due  
to This Famous Remedy.

Camden, N. J.—"It is with pleasure  
that I add my testimonial to your  
already long list—hoping that it may  
induce others to avail themselves of  
this valuable medi-  
cine, Lydia E. Pink-  
ham's Vegetable  
Compound. I suf-  
fered from terrible  
headaches, pain in  
my back and right  
side, was tired and  
nervous, and so  
weak I could hardly  
stand. Lydia E.  
Pinkham's Vegeta-  
ble Compound re-  
stored me to health  
and made me feel like a new person,  
and it shall always have my praise."  
—Mrs. W. P. VALENTINE, 902 Lincoln  
Avenue, Camden, N. J.

Gardner, Me.—"I was a great suf-  
ferer from a female disease. The doc-  
tor said I would have to go to the  
hospital for an operation, but Lydia E.  
Pinkham's Vegetable Compound com-  
pletely cured me in three months."  
—Miss S. A. WINTHROP, R. F. D. No. 14,  
Box 28, Gardner, Me.

Because your case is a difficult one,  
doctors having done you no good,  
do not continue to suffer without  
giving Lydia E. Pinkham's Vegetable  
Compound a trial. It surely has cured  
many cases of female ill, such as in-  
flammation, ulceration, displacements,  
fibroid tumors, irregularities, periodic  
pains, backache, that bearing-down  
feeling, indigestion, dizziness and ner-  
vous prostration. It costs but a trifle  
to try it, and the result is worth mil-  
lions to many suffering women.

### SHE WAS CURED.

Mrs. Mina Henderson says: "Mi-

ach on many occasions I expected to  
die. I doctored and used remedies  
without success or relief, until using  
Mi-na I was cured." 283 Payne St.,
